### Real Groovy Spin Cleaner

This nifty kit is a quick way to clean a lot of records at once. Spin clean your records in record cleaner and with soft bristles, and then dry them on the handy rack included.

Can be used with our branded record cleaner and distilled water options.

After cleaning, you should replace your inner sleeves. (you don't put your dirty socks on after a shower, do you!)

These are a step up from your regular polypropylene inner sleeves, with 4 layers of hdpe and rice paper. Like slipping into clean sheets.
